Dear friends of ANKAA,

Our campaign **#donate4futures** is officially launched! And you can be part of it!

You can choose from 5 different packages or give an amount of your choice; every amount is welcome and needed. Your donation supports ANKAA's education programs for communities affected by forced migration and/or unemployment. The goal of our campaign is to raise regular donations for long-term and sustainable planning.

In case you don't know us yet...

ANKAA Project is a not-for-profit organisation, founded in 2017, that strengthens communities affected by forced migration and/or unemployment, by offering quality programs in language learning, vocational training in tailoring, beekeeping, bike repair, as well as cultural activities.

Its hybrid model of a social enterprise connects its education programs, focused on social inclusion, with its revenue-generating activities of creating sustainable products under fair and ethical working conditions.

We recognize people for their skills, experiences, future ambitions and goals to create tools for rebuilding lives in a dignified, sustainable and personal manner. With our holistic approach towards social inclusion, we highlight the inter-connection between education and employment.

Feel free to share our campaign **#donate4futures** with your friends and family - together we can raise the necessary funds to support ANKAA's educational programs in Athens.
